

JASON TWYMAN

IT SUPPORT SPECIALIST | HELP DESK | SERVICE DESK

San Clemente, CA | jasontwyman_84@yahoo.com | [linkedin.com/in/jasontwyman](https://www.linkedin.com/in/jasontwyman) | github.com/jasontwyman

PROFESSIONAL SUMMARY

Security+ certified support professional with 8+ years of experience as a first point of contact for incident intake, escalation, documentation, and stakeholder communication in regulated environments. Built evidence-backed osTicket, Windows Server, and Active Directory home labs covering ticket documentation, account administration, domain services, Group Policy, and network troubleshooting.

TECHNICAL PROJECTS

- **Help Desk & IT Support Lab** — Built and configured a self-hosted osTicket environment with seven synthetic ticket records, five troubleshooting runbooks, three executed Active Directory exercises, and explicit evidence boundaries for diagnostic and illustrative cases.
- **Active Directory Home Lab** — Deployed Windows Server 2025 AD DS and a Windows 11 domain client; configured DNS, users, groups, OUs, Group Policy, and SMB access; validated domain sign-in, secure channel, policy application, and role-based drive access.
- **VirtualBox Lab Networking** — Configured isolated internal networks for Windows Server, Ubuntu, and Kali VMs; validated addressing, DNS, DC Locator, and service reachability with native tools and Nmap.

TECHNICAL SKILLS

End-User Support: Troubleshooting | Incident intake, documentation, and escalation | Technical communication | Knowledge-base procedures | Confidential-data handling

Systems & Networking: Windows | Windows Server | Active Directory users, groups, and OUs | Group Policy | Linux | TCP/IP | DNS | DHCP | VPN | VLANs

Tools & Platforms: osTicket | Microsoft Office | VirtualBox | Nmap | Wireshark | tcpdump

CERTIFICATIONS & EDUCATION

CompTIA Security+ (SY0-701) | Google Cybersecurity Professional Certificate | GED

PROFESSIONAL EXPERIENCE

Security Officer II | Vast | Jan 2024 – Present

Hawthorne, CA

- Serve as a first point of contact for security incidents and access-related concerns at a high-security aerospace facility; gather facts, follow procedures, and route issues appropriately.
- Monitor access-control and surveillance systems and communicate system, credential, and procedural issues through structured escalation channels.
- Produce detailed incident reports and communicate findings while protecting confidential information.

Security Officer | Aegis Security & Investigations | Aug 2022 – Jan 2024

Culver City, CA

- Investigated incidents, documented facts and findings, and coordinated with emergency responders and law enforcement when required.
- Delivered professional service in time-sensitive situations while following established security and response procedures.

Site Supervisor | Allied Universal | Feb 2016 – Jul 2021

Ontario, CA

- Supervised 50+ security officers supporting Amazon Air and Home Depot logistics facilities; managed scheduling, performance, compliance, and operational communication.
- Trained personnel on incident documentation and response protocols; maintained detailed records and reinforced consistent process execution.
