

JASON TWYMAN

IT SUPPORT SPECIALIST | HELP DESK | SERVICE DESK

San Clemente, CA | jasontwyman_84@yahoo.com | linkedin.com/in/jasontwyman | github.com/jasontwyman

PROFESSIONAL SUMMARY

Security+ certified support professional with 8+ years of experience as a first point of contact for incident intake, escalation, documentation, and stakeholder communication in regulated environments. Built documented osTicket, Windows Server, and Active Directory home labs covering ticket workflows, account administration, domain services, Group Policy, and systematic network troubleshooting. Recognized for clear communication, accurate reporting, procedural discipline, and responsive service in time-sensitive situations.

TECHNICAL SKILLS

End-User Support: Troubleshooting • Incident Intake, Documentation & Escalation • Technical Communication • Procedure / Knowledge-Base Adherence • Confidential Data Handling

Systems & Networking: Windows • Windows Server • Active Directory Users, Groups & OUs • Group Policy • Linux (Kali) • macOS • TCP/IP • DNS • DHCP • VPN • VLANs

Tools & Platforms: Microsoft Office • VirtualBox • Nmap • Wireshark • tcpdump

TECHNICAL PROJECTS

- **Help Desk & IT Support Lab** — Built and configured a self-hosted osTicket environment with seven synthetic ticket records, five troubleshooting runbooks, and three executed Active Directory support exercises.
- **Active Directory Home Lab** — Deployed a Windows Server 2025 domain controller; created users, groups, and OUs; configured AD-integrated DNS and Group Policy; and performed account, group-membership, and DC Locator troubleshooting.
- **Network Troubleshooting & Packet Analysis** — Used Nmap, Wireshark, and tcpdump to discover hosts, verify open ports and services, and analyze TCP/IP and name-resolution traffic in an authorized lab.

CERTIFICATIONS

CompTIA Security+ (SY0-701) | Google Cybersecurity Professional Certificate (Google / Coursera)

PROFESSIONAL EXPERIENCE

Security Officer II | Vast

Jan 2024 – Present

Hawthorne, CA

- Serve as a first point of contact for security incidents and access-related concerns at a high-security aerospace facility; gather facts, follow established procedures, and route issues to the appropriate stakeholders.
- Monitor access-control and surveillance systems and communicate system, credential, and procedural issues through structured escalation channels.
- Produce detailed incident reports and communicate findings and recommended actions to internal stakeholders and management while protecting confidential information.

Security Officer | Aegis Security & Investigations

Aug 2022 – Jan 2024

Culver City, CA

- Investigated incidents, documented facts and findings, and coordinated with emergency responders and law enforcement when required.
- Delivered clear, professional service in time-sensitive situations while following established security and response procedures.

Site Supervisor | Allied Universal

Feb 2016 – Jul 2021

Ontario, CA

- Supervised 50+ security officers supporting Amazon Air and Home Depot logistics facilities; managed scheduling, performance, compliance, and operational communication across a distributed team.
- Trained personnel on incident documentation, response protocols, and security procedures; maintained detailed records and reinforced consistent process execution.
- Conducted controlled security assessments to identify procedural gaps and evaluate response times, then delivered corrective training based on the results.
