

JASON TWYMAN

SOC ANALYST I | SECURITY OPERATIONS | CYBERSECURITY ANALYST

San Clemente, CA | jasontwyman_84@yahoo.com | linkedin.com/in/jasontwyman | github.com/jasontwyman

PROFESSIONAL SUMMARY

Security+ certified security professional with 8+ years of experience investigating incidents, mitigating risk, documenting findings, and leading teams in regulated environments. Built documented home-lab projects in SIEM detection, network incident investigation, packet analysis, and Windows Active Directory. Brings disciplined investigation, escalation, confidentiality, and stakeholder communication to an entry-level security operations role.

TECHNICAL PROJECTS

- **Splunk Mimikatz Detection Lab** — Packaged a portable Splunk app with a six-panel dashboard and two MITRE ATT&CK-mapped detection searches for reviewing a public attack-simulation dataset; scheduling is disabled by default.
- **Network Incident Investigation Lab** — Assessed a simulated NTLM credential-compromise chain using available attacker-side and Windows evidence; documented confidence levels, containment actions, and target-side validation gaps.
- **Active Directory Home Lab** — Deployed a Windows Server 2025 domain with AD-integrated DNS; created OUs, users, and role-based groups; authored Group Policy and validated server-side DNS and DC Locator behavior.

TECHNICAL SKILLS

Security Operations: Incident Investigation • Security Monitoring • Alert Triage • Access Control • Risk Analysis • Incident Documentation • NIST CSF / RMF

Systems & Networking: Windows • Windows Server • Active Directory / Group Policy • Linux (Kali) • macOS • TCP/IP • DNS • DHCP • VPN • VLANs • Firewalls

Tools & Scripting: Splunk • Chronicle • Suricata • Wireshark • tcpdump • Nmap • VirtualBox • Python • SQL

CERTIFICATIONS

CompTIA Security+ (SY0-701) | Google Cybersecurity Professional Certificate (Google / Coursera)

PROFESSIONAL EXPERIENCE

Security Officer II | Vast

Jan 2024 – Present

Hawthorne, CA

- Respond to and investigate security incidents at a high-security aerospace facility; document facts, findings, and recommended actions for internal stakeholders and management.
- Monitor access-control and surveillance systems and escalate system, credential, and procedural issues through established response channels.
- Apply security policy, protect confidential information, and support continuous-improvement efforts in a regulated, high-stakes environment.

Security Officer | Aegis Security & Investigations

Aug 2022 – Jan 2024

Culver City, CA

- Investigated incidents, preserved and documented relevant facts, and coordinated with emergency responders and law enforcement when required.
- Applied established security procedures to identify, communicate, and escalate risks affecting people, facilities, and operations.

Site Supervisor | Allied Universal

Feb 2016 – Jul 2021

Ontario, CA

- Supervised 50+ security officers supporting Amazon Air and Home Depot logistics facilities; oversaw performance, compliance, incident escalation, and operational communication across a distributed team.
- Trained personnel on incident reporting, response protocols, and security procedures; investigated incidents and maintained detailed operational records.
- Conducted controlled security assessments using mock prohibited items to evaluate screening effectiveness, response times, and procedural gaps; delivered corrective training based on findings.
