

JASON TWYMAN

SOC ANALYST I | SECURITY OPERATIONS | CYBERSECURITY ANALYST

San Clemente, CA | jasontwyman_84@yahoo.com | [linkedin.com/in/jasontwyman](https://www.linkedin.com/in/jasontwyman) | github.com/jasontwyman

PROFESSIONAL SUMMARY

Security+ certified SOC Analyst I candidate with home-lab experience in Splunk detection design, incident analysis, and Windows Active Directory. Brings 8+ years of physical-security operations and leadership, with strengths in investigation, escalation, and documentation.

TECHNICAL PROJECTS

- **Splunk Detection Engineering Lab** — Analyzed 6,026 public attack-simulation events in an isolated Splunk VM using two MITRE ATT&CK-mapped SPL review searches and a six-panel dashboard; documented detection limitations.
- **Network Incident Investigation Lab** — Analyzed a simulated NTLM authentication and credential-access scenario; documented observations, confidence levels, containment recommendations, and missing target-side execution evidence.
- **Active Directory Home Lab** — Deployed Windows Server 2025 AD DS and a Windows 11 domain client; configured DNS, users, groups, and Group Policy; validated secure-channel health, client policy application, and SMB drive access.

TECHNICAL SKILLS

Lab Skills: Splunk Search & Dashboards | Windows Event Analysis | MITRE ATT&CK Mapping | Incident Reporting
Systems & Tools: Windows | Active Directory | Group Policy | DNS | Linux | Wireshark | Suricata | VirtualBox
Additional Skills: Jira Cloud | Ticket Management | Google Chronicle | Python | SQL | TCP/IP | NIST CSF
Automation: Claude-based workflows | Scheduled searches | Criteria-based filtering | Email digests

CERTIFICATIONS

CompTIA Security+ (SY0-701) | Google Cybersecurity Professional Certificate (Google / Coursera)

PROFESSIONAL EXPERIENCE

Security Officer II | Vast

Jan 2024 – Present

Hawthorne, CA

- Investigate physical-security incidents at an aerospace facility; document facts, findings, and recommended actions for management.
- Monitor access-control and surveillance systems; escalate system and procedural issues through established response channels.
- Protect confidential information and apply security procedures in a high-security environment.

Security Officer | Aegis Security & Investigations

Sep 2022 – Jan 2024

Culver City, CA

- Investigated physical-security incidents, preserved relevant facts, and coordinated with emergency responders and law enforcement when required.
- Identified and escalated risks affecting people, facilities, and operations using established procedures.

Site Supervisor | Allied Universal

Feb 2016 – Aug 2021

Ontario, CA

- Supervised 50+ security officers at Amazon Air and Home Depot logistics facilities; oversaw performance, compliance, incident escalation, and operational communication.
- Trained personnel on incident reporting and response protocols; investigated incidents and maintained operational records.
- Conducted controlled physical-security assessments with mock prohibited items; evaluated screening procedures and delivered corrective training.

EDUCATION

GED — General Studies
